

INTERNSHIP REPORT

P R E S E N T A T I O N

Presented by : Sreetama Ghosh Ray

Internship Details

Union Bank of India

RO Chennai South

19 Aug - 6 Oct 2026

30 working days, 240 hrs

Organization Profile

Union Bank of India

A public-sector bank with Head/Central Office in Mumbai, operating through Zonal, Regional and Branch levels.

Regional Office Chennai South

Administers ~75 branches - welfare, attendance, leave, transfers, salary and allowance processing. Its HR desk links Head Office policy to day-to-day branch administration, training, industrial relations and discipline.

Internship Scope

- **Objective:** to gain practical exposure to HR operations in a public-sector bank, alongside primary data collection for the dissertation on Hybrid Learning and Training Effectiveness.
- **Divisional Exposure:** involved in orientation across the RO's HR desk, the Rural and Agriculture Business Department (RABD), Currency Chest, and the branch network.

Work Areas

The internship covered four main work areas, moving from HR administration through fieldwork to change management.

HR Administration

Transfers & Discipline

Branch Visits

Change Management

HR Administration

Daily Circulars

Morning prayer followed by reading of circulars on performance, NPAs, policy updates and training requirements.

Leave Sanctioning

Routine leave sanctioned at the RO; maternity, sabbatical and study leave need higher approval.

Salary & Allowances

RO's role in processing pay, permissible allowances, and TA/conveyance claims for official travel between branches.

Transfers, Discipline & RABD

Transfer Policy

inter-state transfers involve management, unions and the Head Office; intra-region transfers are handled directly by the RO

Discipline

reporting of an issue, examination by the concerned authority, and a formal inquiry where necessary.

RABD & PSL

agricultural lending, rural development schemes, and mandatory credit to agriculture, MSMEs, education, housing and weaker sections — the bank's role in financial inclusion.

Branch Visits

What I Did

Visited 27 branches across the region plus RO departments (Retail Loans, Currency Chest) to administer a questionnaire on training effectiveness.

What I Found

Staffing varied widely (e.g. Triplicane 2 ran on 2 officers and 1 cashier), directly limiting training time. Employees compared classroom, online and live-streamed training and how far they applied it at work.

Change Management

The Merger: Andhra Bank and Corporation Bank amalgamated with Union Bank of India, bringing employees from different legacy systems together.

SOP Adoption

Staff had to learn common Standard Operating Procedures for documentation, authorization levels and customer service.

Ongoing Training

Continuous training, not one-time orientation, helped employees adapt with confidence to the merged systems.

Key Learnings

- **Broad HR Perspective:** HR in a public-sector bank goes beyond recruitment and salary — it covers welfare, leave, transfers, training, internal communication and industrial relations.
- **Research Skills:** developed professional communication, research ethics and respectful data collection in a live banking environment.

Core Takeaways

Confidentiality and controlled access are central to handling employee records.

Staffing levels and branch workload directly shape training participation.

Hybrid learning (classroom + digital + live) works best when matched to the branch's operating conditions.

Training is a key tool of change management during organizational transitions.

Conclusion

The internship connected classroom learning with practical HR administration, fieldwork and change management, directly informing the dissertation on Hybrid Learning and Training Effectiveness.
